

Mastering Blocs 3 course

The Curriculum

Get lifetime access to all current and future videos covering advanced features of Blocs 3.

When you sign up for Mastering Blocs, you get a lifetime access to the following content. I will also keep this course up to date, and if there will be any dramatic changes in Blocs 3, I will make sure this course reflects them.

 **Blocs 3 for Beginners course is included in Mastering Blocs** 

You also get all legacy courses for Blocs 2, such as:

- Blocs Core Training (82 videos)
- Building a Website in Blocs 2 (24 videos)
- Getting Started with Blocs 2

And, most importantly, you get an access to monthly free video updates covering various aspects of using Blocs 3.

-  5 - 10 new free videos
-  Project files and resources
-  Extensive web design resources
-  Agency template (\$49 value)
-  Written cheat sheets
-  Priority email support

If you have any questions or need help with Blocs, you can send me email to gezalov@me.com

Free Monthly Videos

When you sign up for Mastering Blocs 3 course, you get lifetime access to a collection of detailed videos covering various aspects of using Blocs 3.

In 2019, I plan to add videos every single month.

In January, I will add more videos covering buttons.

In February, I will add more videos covering icons.

In March, I will add more videos covering typography.

In April, I will add more videos covering cards & panels.

In May, I will add more videos covering menu & navigation.

In June, I will add more videos covering images.

In July, I will add more videos covering forms.

In August, I will add more videos covering columns.

In September, I will add more videos covering visibility.

In October, I will add more videos covering mobile optimization.

In November, I will add more videos covering special effects.

In December, I will add more videos covering tabbed content.
